MUHAMMAD SHOAIB ASGHAR

Software Quality Assurance Engineer

shoaibasghar1515@gmail.com | +923186540421 | Pakistan | /mshoaibasghar

SUMMARY

Detail-oriented Software Engineering graduate with hands-on experience in Python, FastAPI, PostgreSQL, REST API development, and SQL, seeking to grow into a Software Quality Assurance Engineer role. Comfortable across the SDLC, with practical exposure to functional and API testing through Swagger/OpenAPI and Postman, data validation, and business-rule verification while building backend systems. Strong analytical skills, an Agile-style development mindset, and a genuine passion for software quality and learning QA tools like Cypress and Playwright.

CORE SKILLS

Testing Types: Manual Testing, Functional Testing, Regression Testing, Smoke & Sanity Testing, Integration Testing, User Acceptance Testing (UAT), Cross-Platform Testing

API & Backend Testing: REST API Testing, Postman, Swagger / OpenAPI, FastAPI, SQLAlchemy ORM, Request/Response Validation

Databases & SQL: PostgreSQL, MySQL, SQL Querying, Relational Data Validation, Data Integrity Checks

Programming Languages: Python, SQL, JavaScript, C#, C++, HTML, CSS

Process & Methodology: SDLC, Agile/Scrum fundamentals, Requirement Analysis, Test Case & Bug Documentation

Mobile & Frontend: Flutter, Responsive UI Design, Widget Development, Cross-Device UI Verification

Tools & Environments: Visual Studio Code, PyCharm, Android Studio, Visual Studio, XAMPP, Anaconda Navigator, Jupyter Notebook

Currently Building: Automation testing exposure with Cypress and Playwright; API performance testing with JMeter

EXPERIENCE

Flutter Frontend Developer | *Digisol 365 – Bahawalpur* 07/2024 – 12/2024

- Built and maintained multiple mobile UI replicas for social platforms and fintech apps, translating design requirements into responsive, cross-device interfaces using Flutter.
- Manually tested UI components across screen sizes and devices, then worked with the design team to reproduce and resolve defects in an iterative, feedback-driven workflow similar to Agile sprints.

PROJECTS

Crime Investigation Management System | *Backend REST API — FastAPI, PostgreSQL* 05/2026 – 06/2026

- Designed and built a relational database schema for detectives, cases, suspects, evidence, and witness statements, applying data validation and business rules such as case threat levels and AI-based risk scoring.
- Performed functional and API testing of REST endpoints using FastAPI's built-in Swagger UI and Postman, verifying request/response correctness, edge-case handling, and relational data integrity.

Jarvis Voice Assistant | *Desktop AI Assistant — Python* 03/2025 – 05/2025

- Developed a voice-controlled desktop assistant using speech_recognition, pyttsx3, and win32com.client to execute system commands, open websites, and play media.
- Manually tested each voice command and feature across multiple scenarios to confirm reliability and correct system behavior.

Online Examination System (Final Year Project) | *Web App — PHP, MySQL* 01/2024 – 08/2024

- Built a full web-based examination system with separate student and teacher portals, exam creation, and automatic result computation.
- Conducted functional and user acceptance testing (UAT) with sample student and teacher accounts to verify login flows, exam submission, and result accuracy.

Social & Fintech UI Clones | *Mobile UI — Flutter* 09/2024 – 12/2024

- Recreated JazzCash, Facebook, and Instagram interfaces in Flutter, focusing on responsive layouts, navigation, and interactive components.
- Performed cross-device sanity checks to ensure consistent UI rendering and smooth navigation across screen sizes.

Guess the Truth | *Console Game — Python (OOP)* 05/2025 – 05/2025

- Built a console-based logic game using Python OOP and the random module, including manual test runs to validate game logic edge cases.

EDUCATION

BS Software Engineering | *Islamia University Bahawalpur (CGPA: 3.34/4.00)* 09/2020 – 05/2024

Advance Python Bootcamp | *Excellence Delivered – Lahore* 03/2025 – 06/2025

Web Development Bootcamp | *BuiltinSoft – Bahawalpur* 07/2025 – 12/2025
